

COUNTY OF SAN DIEGO, HEALTH AND HUMAN SERVICES AGENCY, BEHAVIORAL HEALTH SERVICES

MENTAL HEALTH SERVICES ACT (MHSA) INNOVATION PROGRAMS AND SERVICES

The goal of Innovation (INN) programs is to develop and implement promising and proven practices to increase access to mental healthcare. Innovation programs are defined as novel, creative and/or ingenious mental health practices/approaches that are expected to contribute to learning rather than a primary focus on providing a service. Innovation programs are developed within communities through a process that is inclusive and representative, especially of unserved and underserved individuals. Innovation promotes recovery and resilience, reduces disparities in mental health services and outcomes and leads to learning that advances mental health in California in the directions articulated by the MHSA. The Innovation component allows counties the opportunity to “tryout” new approaches that can inform current and future mental health practices.

San Diego County MHSA funded programs directly supports the County’s Live Well San Diego long-term initiative of achieving the vision of healthy, safe and thriving communities, by enabling participants with mental health needs and the general public to access necessary resources and thereby lead healthy and productive lives.

FY 16/17 INNOVATION PROGRAM SUMMARY

Work Plan	Program	Program Name	Program Description	Program Goal	Population Focus	Services Offered	Contact Information	District
